and utilities have also been developed and resource centres set up for the languages included in the eights schedule of the Constitution to enable their use on computer and the internet.

Government is aware of the decline in the use of tribal languages because of demographical and sociological reasons and of the need for preserving and promoting those languages through diverse methods including software. The Central Institute of Indian Languages, Mysore, has been researching into and publishing material in various tribal languages so as to make their teaching possible in schools. It has also provided training to teachers in different tribal languages. The Institute has also set up an Electronic Education Unit to focus on research in Information Technology and Indian Languages and to promote the cause of electronic education in mother tongue.
